### **For the Seed Trade . . . .**

Here is our handy "reference size" contract list of Flower Seed items we are planting for 1949 crop harvest.

Thanks to early rains in December, plantings are being made under better conditions than the previous two seasons. Despite unusual cold weather and even a few inches of snow in January, no damage has been done to early planted Flowers. Plantings are going in on schedule and with normal growing conditions in the spring, harvest should be earlier than the 1948 crop.

Production costs in California continue to rise. Yet increased efficiency and mechanization of farming reflect additional savings for you in Macdonald's 1949 catalog. Because of this close cost factor no speculative plantings will be made. We strongly advise all customers to place orders as early as possible, thus avoiding the disappointment of late season shortages.

It is unfortunate that World trade conditions are in a worse mess now than at the height of World War II. To customers abroad whose trade is restricted by Import License or dollar regulations, we are pleased to offer assistance in every way possible—both by trials of new items and Trade lists to keep you posted on developments here.

All customers planning a trip to California this summer are cordially invited to visit our fields in the beautiful Santa Maria Valley. Our fields are usually showing their best color between June and the middle of August.

It is again our pleasure to thank you, our customers, for your friendship and patronage during the 1948 season. We can assure you that we will strive to give you even better service in 1949, and we look forward to handling your new crop Flower Seed requirements.

THE MACDONALDS

WM. MACDONALD

J. D. MACDONALD

WM. K. MACDONALD

## *Santa Maria, California*

### **Terms and Conditions of Delivery . . . .**

All seeds are offered F.O.B. Santa Maria, California, for delivery from 1949 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 2% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C.O.D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Santa Maria is now a scheduled stop for Southwest Airways, Inc., which gives us twice daily service to Los Angeles and San Francisco. This fine service will enable all Air-Mail to reach Chicago and New York areas within 24 hours from our office. Air Express service has been inaugurated on this same schedule.

Definite shipping instructions should accompany each order placed, and will be carefully followed by our Shipping Department. In the event instructions are not received, shipments will be forwarded over the most direct and cheapest route. Delivery to the common carrier in good condition will terminate our responsibility.

Prices quoted in this catalog apply against all 1949 crop purchases, and are effective immediately on all spot orders. We reserve the right to change these prices at anytime without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. All orders for four ounces or more will be charged at the pound rate.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

We give no warranty, express or implied, as to the productiveness of any seed we sell and will not be in any way responsible for the crop. Our liability in all instances, is limited to the purchase price of the seed. (Standard non-warranty clause of American Seed Trade Association.)

## SWEET PEAS (HAC 6 FT.) EARLY FLOWERING SPENCER

Our listing of Early or Winter Flowering Sweet Peas includes all of the important Florist and Home Gardener varieties. These are all exceptionally large flowered and long stemmed—many being beautifully duplexed. As Sweet Peas have been a "main crop" item with Macdonald for over twenty years, it is only natural that our breeding work has produced a majority of the current market favorites. The remarkable new varieties now available to all Sweet Pea lovers, have without doubt contributed much to their continued popularity. No better Sweet Peas are available anywhere—at any price!

### SWEET PEA (HAC 6 FT.)

### NEW AND STANDARD SPENCER VARIETIES

We have tried to eliminate similar colors and old, inferior varieties as much as possible in our Late Spencer Sweet Pea group. If we are not listing the particular variety you want, please refer to our color classification on page 39 and we feel sure you will find it in the proper color group. Excellent substitutes are available here. Our "fifteen best" colors are listed on page 6. These are all outstanding Spencer varieties.

<b>PANSY (Viola Tricolor Hortensis) (HA 6 in.)</b>			
For the past six years, we have had under direct production in the Pacific-Northwest especially fine strains of all the better Pansies. Again this year we can offer you this same group of quality varieties, which are grown for us by a Pansy Specialist. We find the size and colorings of these Pansy varieties to be unequalled. Limited quantities of seed will be available in July—larger amounts thereafter as the season advances.

------------------	------------------

## STOCK GIANTS OF CALIFORNIA (HA 36.in.)

For the commercial cut flower grower, Macdonald's Giants of California varieties are the best Stocks available. This superb branching type produces immense spikes of two inch florets, and average a high per cent of doubles. One mammoth spike per plant can be produced, when transplanted four to six inches apart in beds.

3032	<b>Golden Gate</b> (Macdonald), yellow.....	1.60	20.00
3033	<b>Mojave</b> (Macdonald), rich velvety purple .....	1.60	20.00

## COLOR CLASSIFICATION

In addition to our regular four acre Sweet Pea Trial Ground, we recently conducted a series of color tests on every Sweet Pea variety that is offered for sale. An especially outstanding variety in each color group is indicated by two stars (★★). Those with one star (★) are highly recommended and will give fine results. All recommended varieties are vigorous growers, and will produce immense flowers on long stems.
